

Artison

Sketch LCRDM MK2

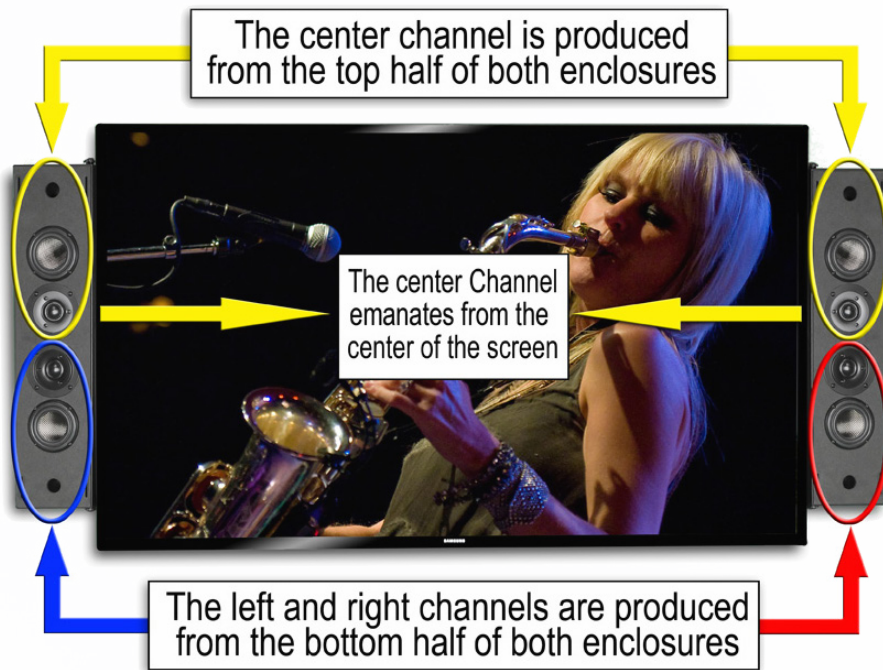

The Sketch LCRDM Mk2 is the refinement of one of the most advanced Audio/Video Speaker Systems on the market today. Its entry level position in the LCR DM Line belays the fact that its performance and the experience it can deliver is an obvious relative to the top of the line Masterpiece LCRDM Mk2. With Dual Mono Center Channel technology invented by Artison, you will enjoy an incredible audio or movie experience.

Like the rest of the LCRDM Mk2 Line, it can be mounted directly to the television and hidden in plain sight with our custom designer grilles, or use our Flush to the wall In-Wall Kit. The Sketch blends into any room environment seamlessly and yet delivers the best performance in its class. Our trademark "Total Involvement experience[®]" can be expected from any Sketch Installation.

Sketch LCRDM MK2
